OC Research Program

The Osteoporosis Canada Tim Murray Short-Term Training Awards

These awards (maximum \$1500) provide successful individuals the opportunity to learn more about osteoporosis, advance existing research skills in osteoporosis and/or present their research at a scientific meeting. It is open to undergraduate, graduate, postgraduate trainees and junior faculty members (where junior is defined as less than 5 years in their first academic appointment). The awards aim to build on Dr. Timothy Murray's impressive legacy of teaching, research and patient care by recognizing, supporting and encouraging future leaders in bone health. The application process will be administered by Osteoporosis Canada's research committee.

The proposed training or project must occur between June 2022 and March 31, 2023.

OSTEOPOROSIS

Osteoporosis Canada continues to grow and find new and innovative ways to educate, advocate and support individuals and communities on bone health and in the risk-reduction, management and treatment of osteoporosis.

But we can't do it alone.

We are calling on our caring and committed community to continue that support by making a donation so that we can continue to provide the vital programs and services that help people like you, in communities across the country.

Help hope flourish this spring and together, we will make Canadians unbreakable.
